Cabo Verde among countries to benefit from AfDB fund. Despite remarkable progress in expanding energy access and reducing energy intensity in the past 10 years, the power sector in Cabo Verde faces challenges that could undermine its ability to serve as an engine of economic recovery post the COVID-19 pandemic.

This event concluded a series of 3 Hackathons the Accelerator Lab promoted in Cabo Verde in Blue Economy this year, after Fogo and Sal Islands where more than 60 young people and local entrepreneurs had the opportunity to developed their solutions connected to the Sea and the Environment according to this innovation methodology.

the arid Sahel zone, Cabo Verde faces severe water shortage, which the country addresses more and more through energy intensive desalination, using electricity produced largely by thermal power plants, which depend entirely on imported fossil fuels. The resulting high energy prices directly impact the cost of water production.

H.E. Alexandre Dias Monteiro, Minister of Industry, Trade and Energy in Cabo Verde agreed to participate as a panellist at the UNIDO 9th Ministerial Conference of the LDCs (25-26 November 2021) but due to the last minute Governmental commitments was forced to cancel the participation. Under the auspices of the 9th Ministerial Conference of the ...
