My external solar panels keep 17 out of 20 cameras charged. 1 has a working built in solar panel that I'll probably need to install an external solar panel in the coming winter. The other 3 are using direct power and are controlled by scheduled smart plugs for 30-45 minutes of early morning summer charging to take advantage of lower temperature.

Eritrea's weather, characterized by long sunny days throughout the year, makes it suitable for harnessing solar power. Data from the wind and solar monitoring stations installed in many parts of Eritrea show that ...
