Over 13,000 people at ENERCON's administration, sales, production and service sites all over the world are working tirelessly to bring about the energy transition. "Energy for our people" is our way of promoting a sustainable, motivational and future-oriented corporate culture, where teamwork, purpose, responsibility, transparency ...

Pursuing its mission of "Energy for the world", ENERCON has driven sustainable energy generation from onshore wind since 1984. Thanks to its innovative wind energy converter technology, high quality standards and a total installed power of more than 61 GW, it is one of the world's leading manufacturers. Products and services

Afghanistan: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across ...

Afghanistan is the most economical and inimitable terrestrial corridor for the regional energy trade and transit upon which all stakeholders agree. Stability in Afghanistan will significantly change the

Enercon is the world's leading manufacturer of induction sealing systems and associated support equipment. Companies in the packaging industry rely on Enercon to provide induction sealing solutions providing hermetic seals that stop leaks, enhance shelf life, provide tamper evidence and preserve freshness.

ENERCON began its road to economical / ecological success when graduate engineer Aloys Wobben founded the company in 1984. A small team of engineers developed the first E-15 / 16 wind turbine with a rated power of 55 kW. To start with, ENERCON systems still featured gearboxes. However in 1992, the changeover to gearless technology came about with the first ...
