Our on-grid and off-grid solutions include: Long-term flexible ...

Every year, thousands of homes and businesses lose power supply for hours or days because of emergencies and natural disasters. Many utility power suppliers and distributors reactively call for support during these incidents, resulting in increased costs, delays to restoring power, and a reduction in cost-efficiency due to over-specification for the emergency response.

Download Energy Conversation whitepaper. Many of the world's fastest-developing economies are found in Africa, the Middle East, and Asia. With rich resources available in these regions, there is great potential for significant growth - if they are handled in the right way.
