BW ESS is part of BW Group, a global maritime company founded in 1955 that cites shipping, floating infrastructure, deepwater oil and gas production and new sustainable technologies among its operations. The merger seeks to enhance the company's energy storage capabilities and solidify its presence within the renewable energy market.

Saft has opened a new manufacturing plant for energy storage systems (ESS) in Zhuhai, China. This will enhance Saft's capacity to serve the global ESS market and support the transition to renewable energy. The new plant will enable Saft to support customers all over the world with an integrated approach to energy storage.

There is no denying that the EV industry will be the largest market for lithium-ion batteries in the coming decade. This, combined with global acceleration towards energy transition, provides a backdrop for the lithium-ion battery-based energy storage systems to thrive. Promising outlook. Lithium-based ESS market saw considerable growth in 2020.

The pair have now launched their jointly-created residential energy storage system (ESS) using CATL battery solutions and KSTAR's inverter technology. Described as an "all-in-one", the ESS is designed to meet IP 65 rating standards, meaning it is "dust tight" and offer some protection from water.
