

Ameresco solar Cuba

What services does Ameresco offer?

Learn about our capabilities in solar farms, off-grid solar, solar thermal and community solar, as well as financial options available to fund solar power development. Ameresco provides a range of solar energy solutions, including solar farms, off grid solar, brownfield solar farms, solar thermal and solar canopies.

What are Ameresco solar panels?

Ameresco solar panels are a continuation of the previous BP Solar range of panels. Ameresco, a US based energy company, manufactures these panels after acquiring the rights. They maintain the high quality electrical and structural designs to meet stringent standards.

Does Ameresco sell BP Solar?

Ameresco also took over production of BP Solar products, which we continue to carry right here on MrSolar.com as we always have. We can supply your needs with this high-quality, ever popular line of PV modules. We can design and engineer a custom solar power system solution for your solar project, large or small.

What can Ameresco do for You?

Ameresco can develop, engineer, build, own, operate, finance, and maintain solar power systems, providing a complete solution. We could operate and maintain your existing solar power system or assist with financing for a new construction.

Does Ameresco have a capital lease?

Ameresco designs, builds, and operates the PV system, and a bank puts up the capital and owns the system for 10 to 15 years. A capital lease provides loan financing with all the benefits of ownership: Investment Tax Credit, depreciation, solar incentives and 100% of the solar cost savings.

Lease: For customers with high credit scores, the operating lease yields higher project savings than a solar PPA through lower interest rates. Ameresco designs, builds, and operates the PV system, and a bank puts up the capital and owns the system for 10 to 15 years. A capital lease provides loan financing with all the benefits of ownership: Investment Tax Credit, depreciation, ...
