ANTIGUA BARBUDA 3 Antigua and Barbuda is a small island state with no known indigenous fossil resources for energy supply; the country imports 100% of petroleum products to meet its energy demands. This dependence on fossil fuels exposes our nation to external shocks and the volatility of the petroleum fuel market. Rising energy

o Connected to a 50 kW, grid-interactive solar PV array December 2021 2.1.5 50 kW Solar array and charging infrastructure monitoring protocol and methodology. September 2022 2.1.6 Design and implementation of quarterly operation and performance reports for the 50 kW, grid-interactive solar PV array charging station.

The battery can store the extra energy produced from solar panels during the day to avoid using electricity at a more expensive rate. The peak time-of-use (TOU) rates can be double the price compared to off-peak rates. In such a scenario, a solar battery storage system can come in handy for using electricity without having to pay such a high price.
