

Austria anker powerhouse 767

How much power does an anker powerhouse 767 have?

The Anker Powerhouse 767 portable power station truly empowers your adventures with its robust 2048 watt hour capacity, 1440 watt AC charging, and flexible recharge options. Bring reliable off-grid power to any location with this versatile dark grey powerhouse. The manufacturer's part number for this product is A1780C11.

Does the Anker 767 have USB power?

The Anker 767 really shines with USB power. It has a whopping three of the 100W high power USB-C sockets which can be used to directly charge and run the latest laptops without requiring a separate AC mains power brick. Much easier and more convenient to use USB-C.

Can Anker powerhouse 767 charge a 2048 watt battery?

The Anker PowerHouse 767 can charge its 2048Wh battery off mains at up to 2200W. And you just need a standard IEC mains cable - often called a kettle lead in the UK. You can use any kettle lead but ensure it has a 10A fuse - at full charging speed you'll blow any plug with a 3 or 5A fuse.

What is included in Anker 767 solar panel?

What You Get: Anker 767 Portable Power Station (GaNPrime PowerHouse 2048Wh), AC charging cable, car charging cable, solar charging cable, 5-port solar charging connector, accessories bag, × Anker 531 Solar Panel, × 9.84ft / 3m solar charging cable, welcome guide, and our friendly customer service. Is Anker 531 solar panel (200W) waterproof?

What is Anker Solix F2000 (powerhouse 767)?

Anker SOLIX F2000 (PowerHouse 767) brings power to anyplace you need it. Thanks to tough 4.72-inch wheels that can travel up to 125 miles, no obstacle or terrain can stop this portable power. Travel easier and avoid strenuous lifting, thanks to an extendable pull handle that's within close reach.

Can Anker 767 powerhouse charge using sunlight?

We've had an Anker 767 PowerHouse on test for several months and have looked at all aspects of its use except for a detailed investigation into its solar charging performance. This is due to the UK weather being particularly cloudy over Winter, and it not being feasible to charge using sunlight.
