Our Sync Energy solar + battery system (5kW inverter, 6.64kW PV panels, 20kWh battery) has been running since early June. We are really happy with our Sync Energy solar + battery system, which is now generating 35+kWh a day whereas it started around 12kWh a day in early June, as expected with winter conditions. Wow, we're not even into summer yet!

Expanding energy ties. Azerbaijan (population 10.3 million), which is the host of this year's global climate summit COP29, is the epitome of a country experiencing carbon lock-in. Oil and gas production contributes roughly half of the South Caucasus republic's GDP and half of all its national budget revenues, as well as
