Even as the United States lifts restrictions on advanced AI chips, the PRC is tightening export restrictions on technologies critical for producing electric vehicle batteries. This move will ...

The Lithium CR1632 3.0V Battery: Specifications and Key Features Technical Specifications Decoded The CR1632 is a lithium manganese dioxide (Li-MnO<sub>2</sub>) coin cell battery with a nominal voltage of 3.0V. The "CR" prefix indicates its ...

The new generation of battery technology is central to China's success in building electric cars that are considerably cheaper than electric and gasoline-powered cars made in other countries.

Italtel is Italy's first large-scale battery manufacturer, launching a 45 GWh facility in Scarmagno by 2025. Specializing in NMC lithium-ion cells for EVs and energy storage, it utilizes XFC and solid-state technologies, supporting sustainable ...
