

# Bermuda mashriq energy

Solar or Photovoltaic pumping (PVP) is the promising future of all water pumping projects worldwide. With energy from the sun now cheaper than energy from diesel generators or that from the grid in most parts of the developing world, water pumping and irrigation that harnesses the power of the sun is now affordable, clean, silent, and reliable.

- Mashriq Energy is a quality-oriented international company providing solar photovoltaic solutions. We are on a mission to accelerate the transition to renewable energy by providing professional energy consulting services, industrial (EPC) services, and increasing public energy literacy and awareness.

With the increasingly dropping costs of energy storage and the rising trend and need to be completely energy independent, off-grid systems are becoming increasingly attractive in places with an unreliable grid. For the first time in history, it is now possible to generate and consume free energy without relying on fossil fuels.

Business Development at Mashriq Energy
