

Bhutan sun spark solar

Can solar power plants help Bhutan achieve energy security?

The solar plant in Rubesa is one such initiative which takes Bhutan a step closer to achieving energy security through a diversified and sustainable energy supply mix. The project particularly demonstrates viability of solar power plants on a utility scale.

What are Bhutan's upcoming solar projects?

He added that those involved would greatly benefit and take part in Bhutan's upcoming solar projects. One imminent project is the construction of Bhutan's first mega solar power plant, a 17MW plant in Sephu, Wangdue. Today, all of Bhutan's electricity generation is from renewables such as hydropower, wind, and solar.

Will Bhutan build a mega solar power plant?

One imminent project is the construction of Bhutan's first mega solar power plant, a 17MW plant in Sephu, Wangdue. Today, all of Bhutan's electricity generation is from renewables such as hydropower, wind, and solar. However, 78 percent of the country's energy consumption is supplied by fossil fuels, largely for transportation purposes.

Why should Bhutan invest in solar power?

Like hydropower, sun is a bountiful resource Bhutan can tap into for producing renewable energy in keeping with our carbon neutrality commitments and also for enhancing energy security through diversification of energy sources. The commissioning and inauguration of the 180kW grid-tied ground mounted solar photo-voltaic power plant

Is grid-tied solar a viable alternative energy source in Bhutan?

The commissioning and inauguration of the 180kW grid-tied ground mounted solar photo-voltaic power plant marks the start of Bhutan's investment in grid-tied solar energy as a viable alternative energy source in the face of soaring domestic demand and climate change.

Will a 180kW solar plant bring Bhutan's utility scale solar power dream closer?

He said that the current pilot project of the 180kW solar plant brings Bhutan's utility scale solar power generation dream closer. The pilot project engaged around 10 engineers and technicians from the DRE and Bhutan Power Corporation (BPC), who carried out the design, construction, installation, and grid integration work.
