Who is NEXTracker?

With more than 100 gigawatts of smart solar trackers installed around the world, no one has delivered more systems than Nextracker. Wherever we go, we offer training, invest in regional industry, and strive for a small carbon footprint. To learn more about our global reach and local impact, check out our Projects page.

What is NEXTracker's Pelican's jaw project?

Our Pelican's Jaw project will be the first to utilize Nextracker's 100% U.S. domestic content solar trackers. We applaud Nextracker for their leadership in creating a robust U.S. supply chain to support our projects with greater supply security and create high paying, domestic manufacturing jobs.

The latest addition to the Nextracker product family, the NX Gemini(TM) two-in-portrait (2P) smart solar tracker optimizes lifetime value and performance on customer sites with challenging terrain, ultra-high winds, and irregular project shapes. Offering the highest power density tracker on the market, NX Gemini can support up to 17 modules per foundation for as ...

As a leader in the clean energy transition, Nextracker provides critical yield-enhancing expertise and services needed to optimize the value, efficiency, and weather resiliency of solar power plants, offers the lowest system lifetime LCOE, and fully monetizes returns for developers, asset owners and investors.

Nextracker launched a new solar tracker foundation system during Q3 2024, at RE+ last month in Anaheim, California, US. Image: PV Tech. For a seventh consecutive quarter, US solar PV tracker ...

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.

The First 100% US-Made Solar Trackers. Nextracker has achieved what many thought would take years ... the production and delivery of solar trackers with 100% domestic content. This initiative was spurred by the IRA, which has provided substantial incentives for renewable energy projects that utilize domestically sourced materials. The first ...

Aron has over 13 years of experience in the solar industry. He joined Nextracker in May 2021, to help further build out Nextracker's market-leading digital tracker technologies, including TrueCapture and NX Navigator.

...

Nextracker (NASDAQ: NXT), a global provider of intelligent solar tracker and software solutions, today announced it has acquired Ojjo in an all-cash transaction for approximately \$119 million. The purchase price is subject to working capital and other customary purchase price adjustments. Ojjo is a U.S.-based renewable energy company specializing in ...

Combining industry-leading solar tracker and advanced foundations technology, Nextracker delivers comprehensive solutions to optimize solar development across all soil types Nextracker (Nasdaq: NXT), a global ...

As founder and CEO of Nextracker, Dan brings solar expertise and technology innovation together in a way few cleantech leaders can. In less than ten years, Dan founded a solar start-up in the Balance of Systems (BOS) solar manufacturing category, achieved sustained global market share leadership for seven consecutive years for solar trackers ...

The 570 MW solar and 954 MWh storage project is currently under construction by SOLV Energy. Nextracker began investing in local manufacturing infrastructure in 2021 to establish a secure supply ...

Nextracker and manufacturing partners commission second factory in two months, onshoring U.S. manufacturing to fortify the solar supply chain PHOENIX, May 20, 2022 - Nextracker LLC., the global market leader in utility-scale solar trackers, and Atkore (NYSE: ATKR), a global provider of electrical, safety and infrastructure solutions, announced a new ...

3 ???&#0183; Dive into the transformative world of solar energy with Howard Wenger, President of Nextracker, in the latest episode of The Solar Journey with Dr. Torsten Brammer. With nearly 40 years of experience, Howard has played a pivotal role in shaping the solar industry, from co-authoring net metering legislation to leading groundbreaking initiatives at SunPower, ...

Nextracker (Nasdaq: NXT) announced it has surpassed 600 projects delivered in its distributed generation (DG) portfolio. Driven by customers realizing significant energy gains using its NX Horizon(TM) solar tracker systems, Nextracker's DG projects are deployed worldwide in commercial and industrial applications, including data centers, farming, retail, education, ...

Nextracker excels in addressing the geotechnical challenges that face solar projects. Our suite of foundation solutions are designed to handle every soil type - from hard rock to expansive soils - ensuring reliable performance. Advanced engineering and innovative design mitigates risk and assure successful solar projects across all terrains.

Aron has over 13 years of experience in the solar industry. He joined Nextracker in May 2021, to help further build out Nextracker's market-leading digital tracker technologies, including TrueCapture and NX Navigator.
