

Brunei solar generator company

Geneverse seeks to bring you the power of peace of mind. Keep your household running smoothly, and power your home appliances without stress. With our solar generators (backup batteries and solar panels), you can live peacefully and independently with the confidence of knowing that you and your family's future has all the power it needs.

Brunei operates on a 240 Vac 50 Hz electrical system, and Power inverters are the best way to attain off-grid, mobile and/or emergency backup power. Inverters harness clean, non-polluting energy unlike fuel-powered generators. AIMS Power inverters, inverter chargers, and solar inverter chargers are here to give power to the people of Brunei.

In April 2021, Brunei Shell Petroleum (BSP) launched a 3.3 MW solar plant in Panagia to power its Seria headquarters. Consisting of 7,000 solar panels over 4 hectares of land, the grid-connected solar power park is the second solar park in Brunei after the Tenaga Suria Brunei solar plant, which began operations in 2010.

Locally, Deladi's CRE services are focused on the oil and gas industry, primarily serving Brunei Shell Joint Venture companies. They hold contracts with international companies and OEMs, including Solar Turbines International Company and Siemens Energy Pte Ltd. in Singapore, and Solar Turbines Europe S.A. in Belgium.

3. Absence of buy-back or feed-in-tariff (FiT) scheme. There are generally two ways to utilise solar energy for home owners. First is by consuming the electrical generation for your own use and the second is to pump it back into the grid, i.e., to sell it to your electricity provider or in Brunei's context, to the government.
