

Romania's National Energy Regulatory Authority (ANRE) has taken aim at accelerating energy storage solution deployment by eliminating the double taxation on stored electricity. This ...

Just two months after its first acquisition of a battery energy storage system (BESS) in Sweden, Monsson has secured a second project - a 20MWh facility in Härnyda, western Sweden, ...

This policy shift aligns Romania more closely with EU energy goals, where battery storage is increasingly recognized as an enabler of grid flexibility, renewable integration, and energy ...

From battery energy storage systems (BESS) and solar-plus-storage setups to cutting-edge hydrogen fuel cells and vehicle-to-grid (V2G) capabilities, this eBook outlines the technologies ...

Recently, GSL ENERGY has learned that Ukraine and British technology companies have joined forces to launch the "RISE" program, which is intended to raise 100 million euros over the next ...

Why Energy Storage Matters Off the Grid In 2025, more individuals and families are choosing off-grid lifestyles to gain energy independence, lower their carbon footprint, or simply prepare for ...

Bucharest, July 22, 2025 - Nova Power & Gas, a Romanian energy company and part of the E-INFRA Group, announces the launch of the largest battery energy storage project in Romania. ...

We are seeking an experienced and results-driven Asset Manager to take full responsibility for a growing portfolio of solar PV and battery energy storage system (BESS) projects in Romania. ...

Simtel has entered into the engineering, procurement and construction (EPC) agreement with Energy Capital Group, part of Mogan Bucharest which itself is part of Güris Group, a ...

Off-grid solar batteries are essential for storing energy captured from solar panels, ensuring you have a reliable power source even when the sun isn't shining. Whether for RVs, cabins, or ...

Saubere, widerstandsfähige Energie, um den wachsenden Bedürfnissen Rumäniens gerecht zu werden Wärend Rumänien seinen Übergang zu einer nachhaltigen Energiezukunft ...

Power Conversion System (PCS) serves as the "engine" of the energy transition, offering real/reactive power regulation, grid-connected/off-grid switching, and energy storage integration.

Discover how Yohoo Elec's solar hybrid inverters offer intelligent DC-AC conversion, energy storage

Bucharest off-grid energy storage

management, and seamless grid interaction--ideal for homes, businesses, and off-grid communities.

The reform aims to eliminate "double taxation" on stored energy--a major obstacle to wider adoption of battery and pump-storage hydro systems. Only electricity reintroduced into the grid ...

Indonesia's Energy Challenge: Why Solar Battery Storage Is the Key to Reliable Power Indonesia, the largest archipelago in the world, faces a unique set of energy challenges. Many islands ...

An off-grid solar system's size depends on factors such as your daily energy consumption, local sunlight availability, chosen equipment, the appliances that you're trying to run, and system configuration.

Nova Power & Gas, a Romanian energy company and part of the E-INFRA group, announces the start of the largest battery storage project in Romania. The facility, to be built in Floresti, Cluj ...
