

Industrial AI: Predicting with Certainty Technology, particularly AI, is now playing a pivotal role in helping utilities adapt. From asset investment planning to predictive maintenance, Industrial AI ...

A 105Ah MD lithium battery is a high-capacity, medium-duty energy storage solution designed for applications requiring sustained power delivery and deep-cycle resilience. Using LiFePO₄ ...

The increasing deployment of energy storage systems is significantly enhancing grid resilience by offering dependable backup during outages and facilitating the integration of renewable energy ...

Heating, ventilation, and air-conditioning (HVAC) systems account for the largest share of energy consumption in European Union (EU) buildings, representing approximately 40% of the final ...

SAN LEANDRO, Calif., July 24, 2025 -- Inlyte Energy, a manufacturer of iron-sodium battery energy storage systems, will deploy a first-of-its-kind resilience-focused battery at Alliance ...

After entering the world's top ten in photovoltaic capacity per capita, Hungary is picking up pace in terms of batteries as well. Energy storage units are coming online to maintain grid stability and ...

The modular system design approach of Sigenergy's SigenStack has now been verified by full-scale fire testing and third-party validation. Its architecture demonstrates a compelling direction ...

The rapid development of wearable, portable, and foldable electronics has intensified the demand for flexible energy storage systems with high performance and mechanical resilience. Flexible electrodes, as core components of such ...

SAN LEANDRO, Calif., July 24, 2025 /PRNewswire/ -- Inlyte Energy, a manufacturer of iron-sodium battery energy storage systems, will deploy a first-of-its-kind resilience-focused battery ...

Moreover, the increasing use of neopentane in the development of advanced battery technologies holds promise for enhancing the resilience of energy storage systems. This has implications ...

The growing frequency and severity of extreme events, both natural and human-induced, have heightened concerns about the resilience of power systems. Enhancing the resilience of power ...

With 8 GW and counting, Texas is shaping the future of American grid resilience. The 550 MW of new battery storage now greenlit by Lydian Energy is not just another headline, it is the next ...

Budapest energy storage for resilience

Four new grid-integrated energy storage systems have been commissioned in the service area of OPUS TITÁSZ Zrt. The development, valued at nearly HUF 4 billion (EUR 10 million), was ...

Inlyte Energy, a manufacturer of iron-sodium battery energy storage systems, will deploy a first-of-its-kind resilience-focused battery at Alliance Redwoods Conference Grounds in Sonoma ...

To mitigate these challenges, Hungary is investing EUR150 million into approximately 50 grid-scale energy storage projects, aiming to add 440 MW of storage capacity by April 2026. These ...

SAN LEANDRO, Calif., July 24, 2025 /PRNewswire/ -- Inlyte Energy, a manufacturer of iron-sodium battery energy storage systems, will deploy a first-of-its-kind resilience-focused battery ...

Budapest energy storage for resilience
