

Energy Vault Holdings Inc. has successfully closed an \$18 million project financing deal for its 57 MW/114 MWh Cross Trails Battery Energy Storage System (BESS), now fully operational in ...

Texas is seeing an increase in cancellations of renewable energy and battery storage projects, meaning a potential slowdown in what has been one of the hottest clean energy markets in the ...

Solar and wind generated 40.2% of the ERCOT grid's electricity this year through June. When coal plants shut down for unexpected maintenance, solar and wind stepped in, providing about ...

A global developer of grid-scale energy storage projects said it has closed project financing and completed a 10-year offtake agreement for a battery energy storage system (BESS) installation in ...

After setting a record for electricity generation earlier this week, the Texas energy grid set a new one for a rapid discharge of energy storage systems to support peak evening consumption on ...

Existing battery projects in California and Texas see upside, while hybrid storage bets in the Midcontinent Independent System Operator (MISO) territory and the Southeast face shrinking margins under the revised tax credit rules.

Texas presents a unique combination of a robust energy market and a pressing need for reliable infrastructure. The state has been at the forefront of renewable energy adoption, and battery ...

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy storage solutions support renewable energy ...

The innovative Bulgarian project for the production of energy storage batteries BG EXERON X-BESS has been granted strategic status under the European Commission's Net Zero Emission ...

Focused on sustainability and innovation, esVolta develops, owns, and operates reliable utility-scale energy storage assets across the entire lifecycle - delivering value for utilities, energy users, and investors.

IPP Lydian Energy has successfully closed on a US\$233 million project financing for three battery energy storage system (BESS) projects in Texas, US. Energy-Storage.news recently reported ...

Lydian Energy lands \$233M in financing for 550 MW/1.1 GWh of Texas storage The Electric Reliability Council of Texas said it expects to have nearly 14,000 MW of storage on its system ...

Students from the Center for Electromechanics at the University of Texas in Austin drove three hydrogen-powered cars from the state capital to Houston and back, a 365-mile round trip, on one fill ...

The project establishes battery storage as a central element of Bulgaria's future energy supply and uses state-of-the-art algorithmic trading software and innovative incentive structures to exploit the full potential of ...

"The 100MW/400MWh standalone battery energy storage system (BESS) project will enhance the resilience of the electricity network by generating electricity and providing additional technical ...

With a total capacity of 225 MWh, this storage is made of 114 high-tech Energy Storage Systems (ESS) containers designed and assembled by TotalEnergies' affiliate Saft, which develops cutting-edge industrial batteries.

If you have a large enough storage battery, coupled with a home EV charger, you can even run your electric car using the clean energy produced by your solar panels. But while a battery can cut your bills dramatically, it's a ...

The Bulgarian innovation ministry has launched a 126 million leva (\$75.4 million/64.4 million euro) grant scheme to support micro, small and medium-sized enterprises (SMEs) in improving ...

Sunrun has teamed with Tesla Electric to offer an integrated solar, battery and retail electricity package for Texas homeowners, combining the Sunrun Flex subscription service with Tesla's ...

California's largest electric utility is continuing its push to establish a net-zero energy system by 2040, finalising an offtake agreement for 1.8GWh of battery storage capacity with Aypa Power.
