Why is Burkina Faso launching a solar power plant in Komsilga?

Loading... In a significant step towards enhancing electricity supply and sustainable development, Burkina Faso signs an agreement for a 50 MWp solar power plant in Komsilga. The initiative, led by the Minister of Energy and Energie Plus, aims to fortify renewable energy contributions, fostering economic growth and improved access to electricity.

How much solar power does Burkina Faso have?

The International Renewable Energy Agency estimated Burkina Faso had 62 MW of grid-connected solar at the end of 2021. Graphic created by Max Hall, using content from freevectormaps.com, for pv magazine. Emirati clean power developer Amea Power has announced it has reached financial close on a 26.6 MW solar project for Burkina Faso.

Which country is developing a solar field in Burkina Faso?

The Zina solar field, which is being developed by Amea Power, is being financed by the World Bank's private sector arm and will be constructed in Mouhoun province. The International Renewable Energy Agency estimated Burkina Faso had 62 MW of grid-connected solar at the end of 2021.

Will a 50 MWp solar power plant bolster Burkina Faso's electricity supply strategy?

In a pivotal move to bolster Burkina Faso's electricity supply strategy, the Minister of Energy, Mines, and Quarries, Simon-Pierre BOUSSIM, and Serge CONSEIGA, General Director of Energie Plus, sealed an agreement for the construction of a 50-megawatt peak (50 MWp) solar power plant in the commune of Komsilga, Burkina Faso.

Africa's largest engine-solar PV hybrid power plant 15MWp or 12MWac solar PV. The Essakane gold mine in Burkina Faso receives its needed power from Africa's largest engine-solar PV hybrid power plant delivered by Wärtsilä. Benefits for the mine include reduced fuel costs and a smaller carbon footprint.

The findings of this study indicate that a significant portion of Burkina Faso's land area is suitable for solar PV and wind development. It suggests a maximum development potential of approximately 95.9 and 1.96 gigawatts (GW) for solar PV and wind projects, respectively.

Chez Omexom RE Solar, les ingénieurs et techniciens O& M connaissent parfaitement les installations de nos clients.
