

Buy solar and pay later Serbia

Is Serbia a good market for solar energy?

In conclusion, Serbia is still a very young but promising market in the solar energy sector, with some fast-growing solar distributors. Many top solar distributors, solar panel manufacturers and suppliers are in partnership with European companies.

Why is solar energy becoming an attractive prospect in Serbia?

There are several reasons why solar energy is becoming an attractive prospect in Serbia, and we'll be looking at some of them. Solar solutions or projects appeal massively in Serbia because they're durable. According to research, the average lifespan of a solar panel is 20-25 years, while that of the battery and inverter is a decade.

Will Serbia offer solar incentives to power production companies?

The Serbian government announced that it would offer power production firms solar incentives to encourage and promote rooftop solar installations in the country. The government also announced that the companies selected for this benefit would be determined through the auctions.

Is there a way to regulate prosumers in Serbia?

Even though Serbia lacks rules to regulate the status of prosumers or encourage their development, things are moving forward - several hundred solar power stations have been installed so far, supplying green electricity to individuals and businesses.

Which banks offer Geff loans in Serbia?

In Serbia, UniCredit Bank and Erste Bank offer GEFf loans. Although such home improvements can noticeably reduce energy use and long-term associated costs, the initial financial outlay can be high.
