Planning to go solar with a 8-9KW grid tied system. Got quotes from a few companies in my area, one of which was Solar Wholesale, which is a DIY kit. The price difference was pretty small, less than \$1500 for the same size system between Solar Wholesale and a local company which does the install and everything, so it doesn't make sense to DIY.

Today you can buy them from middlemen for about \$.50/w, even cheaper is you buy closeouts, cosmetic seconds, etc. Quotes on Alibaba are about \$.20 to .25/w, but that's in China and there are quite a few steps from there to here, esp. if you don't live near a port city and have to hire a broker to clear custom and manage shipping.
