

These adverse state policy impacts exacerbated financing shifts, triggering plummeting demand and an 80% decrease in rooftop solar installation volume. The California Solar & Storage Association reports that the fallout ...

The German renewable energy development and construction company SUNOTEC has acquired full ownership over SIA DSE Lazas Solar from Danish Sun Energy to develop a new 400 MW ...

SACRAMENTO - Governor Gavin Newsom today announced California achieved an historic milestone - the state was powered by two-thirds clean energy in 2023, the latest year for which data is available. California is the largest economy in ...

Solar Optimum, a leading force in renewable energy, is proud to announce its monumental achievement of retaining the coveted #1 California Residential Solar Contractor (EPC) ranking ...

The California solar mandate is a critical regulation shaping the future of homebuilding and solar energy in the state. As part of California's broader clean energy goals, this solar panels California law requires that most ...

Fortunately, even in the wake of President Trump's "Big Beautiful Bill" gutting clean energy incentives, solar and wind power are still cheaper than planet-warming coal and fossil gas.

As I'll explain here, this 22% difference in Peak Sun Hours will equate to a 22% difference in solar energy production. In solar energy applications, what truly counts isn't the hours between sunrise and sunset in a ...

Residential Solar Permit Reporting Program - SB 379 The Energy Commission's reporting hub for California cities and counties to annually provide data about online, ...

The research forms recommendations for improving policy by adjusting Ukrainian feed-in tariffs to trends in reducing solar energy costs, introducing solar energy in the Mandatory Procurement ...

? Call for Applications: 11 PhD Positions at RTU Institute of Energy Systems and Environment (IESE) in Riga (Latvia) The RTU Institute of Energy Systems and Environment (IESE) is a leading research institute specializing in innovative ...

EDPR NA Distributed Generation, the distributed generation business of EDP Renewables North America, and California Water Service have signed a 20-year PPA for a 2.35-MW DC onsite solar array at Cal Water's Northeast Bakersfield ...

California solar energy riga

The cost of professional solar panel installation relies on a range of factors, including the number of solar panels needed. Most single-family homes need 15-19 solar panels, depending on their energy consumption and the amount of ...

Sunotec's Lazas site, which will have an investment value of up to EUR245 million (\$288 million), will see a 600 MWh BESS installed alongside 400 MWp (DC) of tracker-mounted solar panels at ...

Latvia has been progressively increasing its focus on renewable energy. The country's investment in renewable energy technologies is part of a broader aim to reduce dependence on fossil fuels and decrease greenhouse ...

European renewable energy provider SUNOTEC has finalized the acquisition of SIA DSE Lazas Solar's solar and energy storage project in Latvia from Danish Sun Energy. This transaction ...

For the first five months of 2025, CAISO data showed solar electricity curtailment declined by 12% as a share of generation, falling from 13% to 11.5%, even as solar output grew 18% year over year ...
