

How has energy consumption changed in Cambodia?

Cambodia's total primary energy supply (TPES) increased by an annual average rate of 5.8% from 2000-2010 and by 8.0% from 2010-2019, showing the same trend as total final energy consumption (TFEC). Due to a significant rise in electricity demand, Cambodia rapidly increased hydropower and coal power generation from 2010 to 2019.

Does Cambodia have a good energy data set?

The Cambodia Energy Statistics 2019-2020 provides nationally available energy data before 2010 on coal, electricity, and biomass. The longer historical energy data set provides Cambodia with a good data set for any energy planning analysis as it is used to predict the future behaviour of energy consumption.

What are Cambodia's energy balance tables (EBTs)?

The final primary energy 2000-2019 data were used to produce Cambodia's energy balance tables (EBTs). The EBT 2000-2019 is the basis for this chapter's energy demand and supply analysis. 1.

When will Cambodia's national energy statistics be extended?

Through this project, Cambodia's National Energy Statistics, which includes national EBTs, are successfully extended from 2010-2018 to 2000-2019.

What is Cambodia's primary energy supply?

Cambodia imported coal, oil (petroleum products), and electricity. Domestic energy comprises hydropower and biomass only. Total primary energy supply (TPES) grew at an AAGR of 7% over the 2000-2019 period (Figure 4.10). Figure 4.10. Primary Energy Supply Source: GDE-MME in-house data (2021).

Is Cambodia's Energy Outlook based on current macroeconomic assumptions?

Using the longer historical energy data set, Cambodia's BAU energy outlook model has been updated based on the latest future macroeconomic assumptions. But the outlook results are different from the previous results.

Entalpia Europe has been sharing its knowledge and experience with its clients since 2016. The company's main sales office is located in Poland, in the very center of Warsaw, in the LIM office complex of the Warsaw Marriott Hotel. The headquarters of Entalpia Europe, warehouse, production, logistics and human resources are located in Sieradz.
