I work for a very legitimate solar company in Oregon and it's common practice to get the customers power bills just so we can see how big of a solar system the customer may need. For example, if the customer wants to go 100% solar and they consume 14,000 kWh over the course of a year, we should build a solar system that can produce 14,000 kWh ...

Discussion of solar photovoltaic systems, modules, the solar energy business, solar power production, utility-scale, commercial rooftop, residential, off-grid systems and more. Solar photovoltaic technology is one of the great developments of the modern age. Improvements to design and cost reductions continue to take place.
