

Cayman Islands solar offer

What is Grand Cayman's first commercial solar project?

Grand Cayman's first commercial solar project, a 5 MW Solar Farm, was completed and commissioned in 2017. It is connected to the Company's Bodden Town Substation and provides energy to power approximately 800 homes with clean renewable solar energy.

Are solar panels duty-free in Cayman?

However, renewable energy equipment, such as solar panels, are in fact duty-free for residential homeowners. Although Cayman enjoys over 300 days of sunshine, you will need to consider an alternative source of power should there be no sun. One such option is the Tesla Powerwall battery.

Is Cayman the perfect place to harness solar energy?

Significant improvements are being made in the solar energy industry every year and Cayman is the perfect location to harness the power of the sun. Solar energy can be harvested in two ways: solar photovoltaic (PV), which converts sunlight into electricity and solar thermal, which heats water.

How much does electricity cost in Cayman Islands?

Cayman Islands, March 2023: The price of electricity is 0.414 U.S. Dollar per kWh for households and 0.376 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.

What to do in Cayman if there is no sun?

Although Cayman enjoys over 300 days of sunshine, you will need to consider an alternative source of power should there be no sun. One such option is the Tesla Powerwall battery. These rechargeable lithium-ion batteries are wall mounted and can be stored either outside your home or inside your garage.
