

# China overkill solar

Does China's solar industry face a price war?

China's solar industry faces its own struggles though, beyond trade barriers in the West. The sector's supersonic expansion has overleveraged the domestic industry, overloaded China's grid and sparked a brutal price war, experts say.

Is China 'overcapacity' a problem?

As countries around the world race to convert their power systems, China's solar supremacy has become a growing concern. The United States and other Western countries have accused Beijing of deliberate 'overcapacity' and flooding global markets with cut-price solar exports intended to undercut competition.

Is China's solar industry a global powerhouse?

China's massive solar industry, which enjoys strong support from the state, makes eight of every 10 solar panels in the world. Strong state support and huge private investment have made China's solar industry a global powerhouse, but it faces new headwinds, from punitive tariffs abroad to a brutal price war at home.

How has China's solar industry changed in 2023?

China's solar industry climbed to new heights in 2023, with manufacturing, installed capacity and exports experiencing robust growth and reshaping the global landscape with continuous technological breakthroughs.

Are Chinese solar panels getting unfair subsidies?

The European Union is also probing Chinese-owned solar panel manufacturers for allegedly receiving unfair subsidies. Most US solar panel imports now come from Southeast Asia, but Washington says Chinese manufacturers have relocated operations there to circumvent barriers.

How has China benefited from new solar power?

Beijing invested over \$50 billion in new solar supply capacity from 2011 to 2022, according to the International Energy Agency. The industry has also benefited from access to cheap raw materials, readily available capital from state-owned banks, and huge engineering manpower.

The BMS is manufactured in China. Example of a complete 8 cell battery with BMS: [Click here for detailed assembly instructions for this battery. PDF.](#) To view or change Parameters, there are 3 ways to connect to the BMS. All 3 applications are free. iPhone App: [Overkill Solar Mobile App](#); Android App: [Overkill Solar Mobile App](#)

We will be replacing this model with a brand new BMS that has been designed in America (and programmed in Canada) by Overkill Solar. The new BMS is called The Pathfinder BMS, and we are working around the clock to get it ready for sale. Check back for more info later. When it is closer to being ready, it will be
