Did Christmas Island propose a wave generator?

This is all a bit late, and sad, several years back the residents of Christmas Island proposed a wave generator and had and were denied the opportunity and so now at the 11th hour they propose a poor cousin.

I'm in Suffolk with a smaller ranch home, South facing roof with no tree coverage. Working on getting some quotes for solar. I have heard about people with batteries for the solar that are used during peak (most expensive energy cost) times to use the batteries instead of the grid.

Dan Boyd, who has been installing solar systems since 2004, said the cost of installing solar panels to produce energy has come down greatly. "When I started, it cost \$8 a watt. By 2008 it was \$4 a watt. Now you're looking at good panels that can produce energy for \$1.50 a watt." Modern inverters are also much more energy efficient, he added.

This rise in value stems from the potential energy savings and environmental benefits solar energy provides.
