

Corvus energy bergen Lebanon

Where is Corvus Energy located?

The head office was moved to Norway in 2018. Corvus Energy offers Energy Storage Systems (ESS) suitable for various vessel types, providing energy storage in the form of modular lithium-ion battery systems. The battery systems provide power to hybrid and all-electric heavy industrial equipment, including large marine propulsion drives.

What makes Corvus Energy unique?

Technological excellence in combination with Maritime DNA has made Corvus Energy pioneers in their field with the highest number of installations worldwide. We believe the combination of clean fuel and fuel cells together with batteries is the solution to reach the goal of zero emissions by 2050 for the marine industry.

Why did Toyota invest in Corvus Energy?

This investment will provide Corvus with even fuller access to Toyota's cutting-edge expertise in both fuel cells and battery technology, strengthening Corvus's ability to bring innovations to a rapidly evolving industry. Corvus Energy is the leading supplier of zero-emission solutions for maritime, offshore and port applications.

The Corvus Orca ESS is ideal for applications that need both energy and a high amount of power, moving large amounts of energy at an inexpensive lifetime cost per kWh. The Corvus Orca is suitable for both hybrid electric and all-electric marine applications and for use in the Corvus BOB, an all-in-one, installation-ready battery room solution.

Bergen, Norway 20.06.2024 . Corvus is pleased to share that the company has received the prestigious Norwegian Technology Award 2024 (ESS) for maritime, offshore and port applications. Corvus Energy offers a full portfolio of energy storage and fuel cell systems, suitable for almost every vessel type, providing power systems in the form ...

Corvus Energy opens a new European office in Bergen, Norway adding 100 years of marine experience. New Norwegian office is strategically located to serve European customers, an important and growing market for Corvus Energy's lithium polymer battery systems. This office is in addition to the existing service office in Amsterdam.

Bergen, Norway and Bellingham, USA 14 th of March 2024-- Corvus Energy is pleased to supply the battery energy storage system onboard the Magellan Discoverer-- the first hybrid diesel-electric vessel to be constructed in South America.. The vessel is a luxury polar expedition cruise ship to be built at the Chilean shipyard, Astilleros y Servicios Navales S.A. ...

Bergen, Norway and Vancouver, Canada, 23rd of July 2024 -- Corvus Energy is pleased to announce that it has received Type Approval from RINA for its large-scale marine energy storage system, the Blue Whale
