Does anyone know of systems that use solar photovoltaic cells to supply backup power for household appliances, lighting, etc? Is there any work being done with grid-tie systems, where excess power generation is sold back to ICE? Heard of anyone using PV panels to run a small 1/2 HP backup swimming pool pump? Thanks

According to the Costa Rican Institute of Electricity (ICE) and the Costa Rican National Power and Light Company (CNFL), both government entities, the target market for solar energy in Costa Rica, remains to be households or companies that consume between 200kw/h and 3,000kw/h. ICE and CNFL have been installing photovoltaic systems.

With over 10 years of experience in the industry and 400 projects completed in Costa Rica, Honduras and
