

Croatian electric equipment manufacturer Koncar has signed a contract worth 15.3 million euros with Solarna Elektrana, the Croatian subsidiary of Spanish company Acciona Energia, for the ...

A: A sun powered water pump, also called a solar power water pump or water pump using solar power, runs on energy from sunlight instead of electricity or fuel. It's perfect for farms, gardens, ...

Croatian electricity producer Funicula has submitted a request for an environmental impact assessment (EIA) of a project to build a solar photovoltaic (PV) power plant with an installed ...

JA Solar Technology has been selected to provide its DeepBlue 4.0 Pro n-type solar panels for the upcoming Korlat solar power plant in Croatia. The 99 MW facility is being developed by ...

Solar power is becoming an increasingly popular choice for Australians to begin generating renewable energy at home. Australia is also conveniently well-suited for solar energy thanks to its ample sunlight and wide ...

Are you considering installing solar panels? Financial incentives can significantly reduce your upfront costs. Learn about federal and state government rebates, Small-scale Technology Certificates (STCs), and tax breaks to make ...

Croatia borders the Adriatic Sea and has a land area of about 57,000 square kilometers. As one of the developed countries in Europe, Croatia actively responded to the EU's 2050 carbon ...

A positive shift was brought by other renewable energy sources -- solar power plants, wind farms, biomass, and biogas -- which for the first time held the leading position in the energy ...

As Acciona Energia began construction of a solar PV plant in Peru, Spanish independent power producer (IPP) Zelestra inaugurated a 300MW solar PV plant, which became operational last month.

JA Solar will provide its DeepBlue 4.0 Pro n-type modules, which have passed multiple international certification and durability tests, including resistance to salt mist, ammonia, sand ...

JA Solar is to supply its high-performance DeepBlue 4.0 Pro modules for the 99MW Korlat solar PV project, now under construction in Croatia. Once completed, it will be the country's largest...

JA Solar will supply DeepBlue 4.0 Pro modules for the Korlat solar photovoltaic project (SPP) in northern Dalmatia, Croatia, located 1 km northeast of Korlat village and 7 km northwest of ...

Croatia australia solar power

Croatia has reached a significant milestone in its solar energy development, surpassing 1 GW of installed solar capacity. This achievement was announced by IRENA in its latest update. The ...

RP Global has secured a EUR 12.2 million loan to build its Novalja solar power plant in Croatia. In late April, Austrian company RP Global began the construction of the Novalja photovoltaic ...

The significant growth in solar power capacity, combined with steady contributions from wind and hydroelectric power, has positioned Croatia as a leader in the transition to a low-carbon energy system. With continued focus ...

Solar energy continues to shine as one of the fastest-growing sources of electricity worldwide, with many countries seeing double-digit annual growth in solar installations. This graphic ...

Austrian solar technology firm Fronius has launched its new home battery system in Australia, completing its solar ecosystem. The Fronius Reserva offers seamless integration with existing ...
