

How will Mogobe Bess impact South Africa?

Terje Pilskog, CEO of Scatec, expressed his optimism for the project's impact: "This is a significant milestone not just for Scatec but also for the energy transition in South Africa. "Mogobe BESS will set a new standard as one of the first and largest standalone dispatchable battery storage systems in Africa.

What is Mogobe Bess?

The Mogobe BESS project is a first of a kind and reaffirms our standing as a leading renewable energy player in South Africa. We continue to see attractive growth opportunities in the market based on the need for growth in power generation,our strong position in the country and our strong and competent local team,' says Scatec CEO Terje Pilskog.

What is Scatec's Mogobe Bess project?

"This marks a new milestone for Scatec in South Africa and for the renewable energy transition in the country. The Mogobe BESS project is a first of a kind and reaffirms our standing as a leading renewable energy player in South Africa.

Why is the Mogobe Bess project important?

Roar Haugland,Scatec's EVP for Sub-Saharan Africa,commented on the importance of this procurement-driven project: "The Mogobe BESS will support grid infrastructure and unlock capacity for South Africa's energy system. "By doing so,we enable not only greater electricity access but also pave the way for future renewable energy connections."

Is JinkoSolar Asa preparing for a 'Bess' project in South Africa?

Image for illustration purposes only. Image credit: JinkoSolar Scatec ASA,a leading renewable energy provider,has reached financial close for the Mogobe battery energy storage system ("BESS") facility in South Africa totaling 103 MW /412 MWh and is now making final preparations to start construction of the project.

Who owns Mogobe Bess?

Located near Kathu in the Northern Cape province,the 103-MW/412-MWh Mogobe BESS will be majority owned by Scatecwith a 51% shareholding,while its partners -- Perpetua Mogobe (RF) (Pty) Ltd and the holding company of the Mogobe Local Community Trust,will have 46.5% and 2.5%,respectively.

The 15-year Power Purchase Agreement (PPA) was awarded to Mogobe BESS as it was selected under the first phase of energy storage deployment. By securing this contract, Mogobe BESS assists NTCSA(National Transmission Company of South Africa) address the issues of grid instability. This ensures stable and reliable supply for energy in ...

The Oasis 1 Mookodi battery energy storage systems (BESS) project reached commercial close on

Croatia mogobe bess

Wednesday, 16 October 2024. This is in less than a year after being awarded under the Energy Storage Independent Power ...

The company is preparing to begin the construction of the project, Africa's first and largest standalone dispatchable BESS system, near Kathu in the Northern Cape. Scatec will hold a 51% equity share in the project, with Perpetua Mogobe (RF) owning 46.5%, and a holding company of the Mogobe Local Community Trust having the remaining 2.5%.

The estimated cost of the Mogobe BESS project stands at ZAR 3bn (US\$170m), with the primary funding -- about 90% -- sourced from non-recourse project debt. Terje Pilskog, CEO of Scatec, said: "This is a significant milestone not just for Scatec but also for the energy transition in South Africa.

Programme (BESIPPPP) bidding round have advanced to commercial close and will now enter construction. The projects, named Mogobe BESS and Oasis Mookodi, have a combined capacity of 180 MW/720 MWh, and will be connected to transmission substations located near to Kathu in the Northern Cape and Vryburg in the North West province respectively. The battery storage ...
