

Norwegian utility Statkraft has sold its Croatian platform to Resalta, an energy services provider in Central and Eastern Europe, part of the Aggreko Group, the companies announced on Monday.

SLSEA - Sri Lanka Sustainable Energy Authority As the governing body responsible for pioneering the sustainable energy revolution in Sri Lanka, we aim to facilitate the development of our nation's rich energy resources, ...

A positive shift was brought by other renewable energy sources -- solar power plants, wind farms, biomass, and biogas -- which for the first time held the leading position in the energy ...

JA Solar is to supply its high-performance DeepBlue 4.0 Pro modules for the 99MW Korlat solar PV project, now under construction in Croatia. Once completed, it will be the country's largest...

JA Solar has been selected to provide high-performance DeepBlue 4.0 Pro modules for the Korlat solar photovoltaic project (SPP) in Croatia. The project is under construction, with operations ...

Future outlook for Croatia solar capacity and energy challenges Looking ahead, Croatia plans to continue its momentum in renewable energy development. Between 2025 and 2030, the country aims to add another 1.6 GW of wind ...

JA Solar secured the supply contract for high-efficiency DeepBlue 4.0 Pro modules for Croatia's largest solar power project--the 99MW Korlat Solar PV Plant, currently under construction. ...

The global charge controller system market is experiencing robust growth, driven by the increasing adoption of renewable energy sources, particularly solar power. The market's expansion is fueled by the need for efficient energy management ...

Croatia's Ministry of Environmental Protection and Green Transition has initiated the process to determine if a full environmental impact study is necessary for the proposed 99 MW Boksic ...

The project reflects the growing China-Croatia partnership in the clean energy space and is expected to support local economic activity. Earlier in January 2025, JA Solar completed the ...

On April 15, we officially put the first solar power plant in Croatia, entirely owned by us, into operation. The plant is located on the roof of the City Market in Krizevci. The ...

Croatia solar energy research and development

JA Solar will supply DeepBlue 4.0 Pro modules for the Korlat solar photovoltaic project (SPP) in northern Dalmatia, Croatia, located 1 km northeast of Korlat village and 7 km northwest of ...

Key drivers include government incentives supporting renewable energy adoption, the decreasing cost of solar energy systems, and ongoing research and development efforts to improve ETM performance, durability, and cost ...

JA Solar will supply its high-performance DeepBlue 4.0 Pro modules for the 99MW Korlat Solar PV Project, now under construction in Croatia. Once completed, it will be the country's largest ...

JA Solar will provide its DeepBlue 4.0 Pro n-type modules, which have passed multiple international certification and durability tests, including resistance to salt mist, ammonia, sand ...
