

Cyy energy Guinea

Cryogenic Storage Tank We offer a complete range of tank sizes from 1m³ to 250m³ and in both horizontal and vertical configurations. All CYY Energy's tanks feature perlite or a proprietary multi-layer insulation, which ensures high thermal performance, extended hold times, low life-cycle costs and low weight for reduced operational and installation costs.

CYY Energy is a high-tech production corporation that is dedicated to research, development & innovation of air separation units, natural gas liquefaction units and cryogenic chemical equipment. The company has advanced design capabilities, mature project management systems, and high-quality manufacturing processes.

Recently, the 15TPD liquid air separation plant provided by CYY Energy to European customers has been successfully delivered. What Is an Air Separation Plant? 2023-05-19 . An Air Separation Plant (ASP) is a unit used to separate atmospheric air into its various components, mainly nitrogen, oxygen and argon. The process involves cooling the air ...

CYY Energy is a high-tech production corporation which is dedicated in research, development & innovation of air separation units. We manufacture various types of air separation units to meet the various needs of customers,such as high-purity nitrogen plant?small and medium air separation plant and full liquid air separation plant.Our ASU has following advantages:

CYY Energy is a Scientific and technological production which is dedicated in research, development & innovation of air separation units, natural gas liquefaction units and cryogenic chemical equipment. The company has advanced design capabilities, mature project management system, and high-quality manufacturing processes.

completely assured of quality. If you do not find your own Intent High Pressure Gas Cylinder in our product list, you can also contact us, we can provide customized services.

Cyy Energy tiene capacidad avanzada de diseño técnico, sistema de gestión de proyectos maduro, servicio de postventa consumado y cercano. Nuestra producción es ampliamente utilizada en acero, metalurgia, petróleo, industria química, maquinaria, protección ambiental, industria electrónica, medicina, etc. Hasta ahora, hemos entregado con ...

The 10-foot tank container is designed for oil and gas exploration on offshore drilling platforms with a maximum working pressure (MAWP) of 9 bar. The 20" intermodal containers can be built to EN or ASME/DOT designs. Available maximum allowable working pressure (MAWP) options include 10, 18, and 24 bar for European design and 100, 150, 180, 230 psi for ASME/DOT ...
