

DR Congo energy and infrastructure companies

Who is Congo energy?

Exclusive distributor of PRAMAC products in the DRC, Congo Energy offers a wide range of reliable and efficient generator sets. Our energy solutions cover various sectors, from light industry to specific infrastructures such as health and data centers. Thanks to our expertise, we offer tailor-made solutions and efficient after-sales service.

Is Congo energy 100% Congolese?

The head of its Congolese branch, Yvonne Mbala, had spoken about the idea as early as 2019. It would allow the oil company to utilize gas that is currently flared from its offshore oil fields. According to our sources, Congo Energy - which claims to be 100% Congolese - is led by NSM, an engineering company owned by entrepreneur Jean-Michel Ghonda.

What's going on with Congo energy & Perenco?

Some electricity from the plant is to be sold to miners of the former Grand Katanga province. A group of Congolese firms gathered under the banner of the consortium Congo Energy signed a memorandum of understanding (MoU) with the French oil company Perenco in February.

What is the energy potential of the DRC?

The DRC has immense and varied energy potential, consisting of non-renewable resources, including oil, natural gas, and uranium, as well as renewable energy sources, including hydroelectric, biomass, solar, and geothermal power.

What is the government's vision for power generation in Congo?

The government's vision is to increase the service level to 32 percent by 2030. Lack of access to modern electricity services impairs the health, education, and income-generating potential of millions of Congolese people. Most power generation development is directed and funded by mining companies seeking to power their facilities.

What certificate does Congo energy have?

Congo Energy has the certificate issued by ARSP (Autorit#233; de R#233;gulation de la sous-traitance dans le secteur priv#233;). This certificate certifies that Congo Energy is authorized to work as a subcontractor in the Democratic Republic of Congo. Congo Energy strives to provide its partners and customers with high-quality products and services.
