

Strategic site selection and distributed energy generation (DEG) are now key enablers in building a resilient, agile, low-carbon electricity network. At SLR, we are helping shape this transition ...

See who EPAM Systems has hired for this role We are a renowned leader in parallel file systems, delivering cutting-edge distributed storage solutions for the AI and high-performance ...

Weatherford's strategy appears to be heavily reliant on strategic partnerships, leveraging external expertise to accelerate its digital transformation and improve operational efficiency. These ...

Digital and distributed energy resources (DERs) can pave the way for a more efficient, resilient, and sustainable energy future together. While policy and regulatory frameworks are still ...

On this basis, power flow tracking technology is further introduced to conduct a detailed analysis of distributed energy power allocation, providing support for system operation optimization and ...

See who EPAM Systems has hired for this role We are a renowned leader in parallel file systems, focusing on innovative distributed storage solutions for the AI and high-performance computing ...

Distributed energy companies are transforming today's grid by creating a dynamic, decentralized model for generating and distributing energy. With over 50 years of experience, TRC offers multidisciplinary expertise to ...

The Intersection of Digitalization and Distributed Energy: Cybersecurity Risks and Rewards The energy sector undergoes a major change in its current operation. The energy industry moves ...

ENA manages medium and low voltage distribution networks in Armenia, serving about 1 million subscribers. Since 2016, Tashir Group has invested about \$680 million in the modernization of ...

3+ years of experience in designing, building, and operating complex, highly scalable, distributed applications and systems. Experience in distributed systems, containerization, and deployment.

He has about 25 years of professional experience in the public administration system and in the field of security. Arman Smbatyan has been appointed Deputy Director of Sales and Director ...

3+ years of experience designing, building, and operating complex, highly scalable, distributed applications and systems. 3+ years of hands-on software development experience with Python.
