

Digital transformation driven by AI, cloud, and IoT is increasing electricity demand, but smart technologies and renewable energy initiatives, led by countries like Qatar, offer pathways to ...

In conclusion, while Qatar is on a positive trajectory in achieving its energy transition, continued assessment and refinement of its strategies must be put in place. It is crucial to understand ...

Msheireb Properties has officially launched a groundbreaking portfolio decarbonisation strategy in partnership with global consultancy Cundall. Notably, this ambitious initiative targets the ...

Description The project involves the construction of a fifth natural gas liquid (NGL-5) train at the NGL complex in Mesaieed Industrial City around 50 kilometers south of Doha, Qatar. This new facility will have the capacity to ...

This course is designed to provide participants with a detailed and up-to-date overview of Energy-Efficient Rotating Equipment Operation. It covers the fundamentals of rotating equipment and ...

In the transport sector, for example, it could enable the collection, storage and analysis of data to enhance operations, safety, service quality and efficiency. Intelligent Transport Systems (ITS) have the potential to reduce energy use by ...

Qatar is home to many incredible buildings, towering skyscrapers and some absolute architectural beauties. No matter how many times we drive along the Corniche, we think we're always going to be wowed by the Doha ...

This course is designed to provide participants with a detailed and up-to-date overview of carbon footprint calculation and reporting. It covers the carbon footprints of heat and various combined ...

The project involves the construction of a fifth natural gas liquid (NGL-5) train at the NGL complex in Mesaieed Industrial City around 50 kilometers south of Doha, Qatar. This new facility will have the capacity to ...

The Doha Metro, for example, is designed to be one of the most environmentally friendly metro systems in the world, with features such as energy-efficient trains, solar power generation, and water-saving technologies.

Qatar is actively promoting remote work and has even implemented flexible working systems in the government sector, indicating a broader trend. The demand for engineers remains ...

Doha energy efficiency

Msheireb Properties has partnered with global consultancy Cundall to decarbonise its entire Msheireb Downtown Doha portfolio. This pioneering initiative represents Qatar's first large-scale decarbonisation strategy. Qatar's ...

As noted by Ben Hughes, Qatar faces considerable challenges in minimizing energy consumption for air-conditioning, with the maximum energy consumption of the optimal cooling scenario ...

As Qatar's growth in energy efficiency and sustainability increases, industries are left with no other way but to adopt advanced viscosity measurement technologies for their industries to reduce ...

Doha energy efficiency
