Sun Africa (Miami, FL), signed a contract with the Government of Angola to develop a \$2 billion solar project in four southern Angola provinces. The project will include solar mini-grids, solar cabins with telecommunications capabilities, and home power kits. In addition to supporting up to \$1.3 billion in

The project will include the development of solar mini-grids, home power kits and solar-to-power telecommunications. Announced by U.S. President Joe Biden on June 26, 2022, at a G7 Summit in Germany, the Partnership for Global Infrastructure and Investment will help Angola meet its climate...

The program distributed solar kits and solar-powered street lamps to rural communities. However, the exact implementation raises questions about the sustainability of the model. The government of Angola awarded the contract for the distribution of the kits to a company based in the capital, Luanda.

Abundant sunshine, high solar radiation levels and a low electrification rate make Angola conducive to the development of solar photovoltaic power. The country's first solar power plants - located in Bi#243;pio and Ba#237;a Farta - were inaugurated in July 2022 and will supply electricity to 1.5 million households.
