Hydrogen the Second Gas Revolution. Hydrogen, as crucial link in the global energy transition, is only as clean as the energy carrier it's made from. For hydrogen to have a meaningful impact on the global energy transition, the production of clean hydrogen has to be scaled up substantially. And this, in turn, requires innovations that make

A delegation of prominent leaders from the Gulf region's real estate sector visited the Netherlands as part of the Climate Neutral Real Estate programme, with a shared vision for leadership for net zero in desert climates. During their three-day visit, the delegation explored various development projects, technology companies, and advanced energy and water systems in Zeeland,
