

Emaldo power store Hungary

What is the emaldo power store?

The Emaldo Power Store adds profitable storage of self-produced solar electricity to any solar system, allowing for the clean and free energy to be stored until it is actually needed. It works with both new and existing solar installations and is the perfect choice for retro-fitting battery capacity to properties already featuring solar cells.

What is emaldo power system?

Emaldo power systems are innovative energy solutions designed to optimize power storage, management, and distribution for sustainable and efficient energy use. Can I use emaldo as a B2B installer?

Yes, you can! Emaldo provides a user-friendly app for system owners and a B2B platform that allows installers to support system owners. In the app you can monitor power consumption, check energy production, and view real-time data. This empowers system owners to make informed decisions about their energy usage.

Emaldo leverages the giant battery created by virtually connecting all Emaldo systems and constantly bid on the TSO requests. Because grid balancing is not an afterthought, but built right into the core of our systems and the fact that we can manage each system's contribution individually, we are able to bid in more categories
