25% of global energy pollution comes from industrial heat production. However, emerging thermal energy storage (TES) technologies, using low-cost and abundant materials like molten salt, concrete and refractory brick are being commercialized, offering decarbonized heat for industrial processes. State-level funding and increased natural gas prices in key regions will drive TES ...

Lummus Consultants has a demonstrated track record of successfully evaluating energy projects that use both proven and emerging technologies. Our expertise covers conventional renewable technologies, such as hydroelectric, geothermal, biomass and pumped hydro, as well as technologies more recently implemented at utility scale, such as onshore and offshore wind, ...

Fractal's solar + storage site analysis determines the technical and financial viability of adding battery storage to a proposed Solar PV installation or installing stand-alone storage. Fractal will identify business models, optimize dispatch, design specifications and detailed project economics. ... Fractal Energy Storage Consultants 8656 W ...

The Grand Ridge Battery Energy Storage System is located about 80 miles southwest of Chicago, IL.
