

DESRI, in collaboration with El Paso Electric (EPE), has announced the start of construction on the Santa Teresa Solar and Storage project after reaching financial notice to proceed (FNTP). ...

5. Next-Gen Energy Storage: The Heartbeat of Renewables Renewable energy is abundant--but not always reliable. The sun sets. The wind dies. Without effective storage, these fluctuations ...

Located in Do#241;a Ana County, New Mexico, the project includes a 150 MWac solar facility paired with a 600 MWh battery energy storage system (BESS). Under a 20-year power purchase ...

It paves the way for the joint development of battery storage and renewable energy facilities aimed at enhancing the state's energy resilience and aligning with national sustainability goals.

This obligation shall be treated as fulfilled only when at least 85% of the total energy stored is procured from Renewable Energy sources on an annual basis. There are several energy storage technologies available, broadly - ...

Renewable energy's biggest technical headache is storage--how to keep the lights on when the sun isn't shining or the wind isn't blowing. The go-to solution involves batteries, mostly lithium-ion. But the mining of lithium, cobalt, and ...

Integration with Jinko's intelligent energy management platform enables real-time monitoring of all 15 units and AI-optimized dispatch strategies - discharging stored renewable energy during ...

Xcel Energy said July 18 the company has added a portfolio of new generation resources to meet the fast growing energy needs in its Texas and New Mexico service area. "This portfolio is ...

Following its approval by Congress, the One Big Beautiful Bill Act was signed by President Donald Trump on July 4, 2025. This Holland & Knight alert summarizes certain key proposals in the ...

Construction has officially commenced on the Santa Teresa solar and storage facility, a significant renewable energy facility in Do#241;a Ana County, New Mexico. Developed by DESRI (D. E. Shaw ...

The energy storage flywheel market, currently valued at \$236 million in 2025, is projected to experience robust growth, driven by the increasing demand for reliable and efficient energy ...

Edify Energy, an Australian renewable energy developer, has announced that the Koorangie energy storage

Energy storage for renewable energy mexico

system is now fully operational, actively importing and exporting electricity to the grid at its full capacity.

Jinko ESS has delivered 15 SunGiga commercial and industrial (C& I) liquid-cooled energy storage systems to its Mexican service partner, ECOPULSE, for deployment at a site in Querétaro. ...
