

Sweden Björnberget wind farm is one of the largest onshore wind farms in Europe and is situated outside Ånge in the middle of Sweden. The 372 MW wind farm generates enough electricity for approximately 300,000 ...

On this page, you can find energy storage related news from around the globe, our special print editions produced in partnership with Messe Düsseldorf, and videos from the energy storage Europe ...

China's battery-grade lithium carbonate prices rebound to 72,900 yuan/ton amid policy shifts and demand surge. Explore drivers behind the 20% monthly gain and energy storage market impacts.

Gas turbines running on sustainable alternative fuels play a critical role in future energy systems by providing flexible, carbon-neutral solutions to complement intermittent renewable energy sources like wind and solar. Gas ...

The challenge with Renewable Energy sources arises due to their varying nature with time, climate, season or geographic location. Energy Storage Systems (ESS) can be used for storing available energy from Renewable ...

A long history of recycling Swedish recycling history goes back quite some time. Households started sorting waste in the 1980s - first glass, then paper and cardboard followed suit. Plastic recycling got going in the 1990s ...

Delegated Regulation 2024/1364 specifies the required data. The information is detailed in Annexes I and II and includes energy consumption, water usage, waste heat and whether the data center contributes to grid ...

Sweden has been a leader in the development of sustainable energy for a long time, with more than 60% of its electricity currently derived from renewable sources. Institutional investors are ...

According to a latest report from market intelligence firm Clean Energy Associates (CEA), the U.S. energy storage system (ESS) battery manufacturing capacity is facing severe challenges. As ...

Collaborate with cross-functional teams to provide data-driven insights for strategic energy storage and grid analysis projects. Design, build and maintain interactive dashboards and ...

The decree explicitly classifies energy storage facilities and their associated grid connection infrastructure as "public utility" for the first time. This grants them legal support equivalent to ...

Energy storage policy stockholm

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (H.R. 1 119th Congress) (OBBBA), which significantly changes the clean energy tax credit landscape established by the Biden administration pursuant to the ...

Tomorrow's clean and renewable electric grid will be built on a foundation of flexible, responsive energy storage technologies. Supporting the equitable scale-up of those technologies, and the development of applications ...

Regulatory support, R& D incentives, and rising power price volatility are attracting global and domestic investors to Nordic energy transition assets. We highlight Sweden's top 10 energy ...
