

Existing battery projects in California and Texas see upside, while hybrid storage bets in the Midcontinent Independent System Operator (MISO) territory and the Southeast face shrinking margins under the revised tax credit rules.

Recently, L.5215/2025, amending L. 4684/2021, updated the legal framework for the support of “Landmark Investments of Outstanding Significance” in Greece. The law is aimed at further ...

The Clean Electricity Investment Tax Credit under Section 48E of the Internal Revenue Code (IRC) represents a pivotal incentive for advancing zero-emission electricity generation and ...

The integration of isobutane in energy storage solutions faces several significant challenges that hinder its widespread adoption and optimal utilization. One of the primary obstacles is the ...

Greece's Faria Renewables SA has closed a debt financing deal with domestic lender Attica Bank to support the construction of a 49.9-MW/134.2-MWh battery facility at home.

According to a latest report from market intelligence firm Clean Energy Associates (CEA), the U.S. energy storage system (ESS) battery manufacturing capacity is facing severe challenges. As ...

The challenge with Renewable Energy sources arises due to their varying nature with time, climate, season or geographic location. Energy Storage Systems (ESS) can be used for storing available energy from Renewable ...

Tomorrow's clean and renewable electric grid will be built on a foundation of flexible, responsive energy storage technologies. Supporting the equitable scale-up of those technologies, and the development of applications ...

Recently, the German Federal Court of Justice (BGH) issued a landmark ruling confirming that local grid operators have the right to charge grid connection fees (BKZ) for energy storage ...

Looking ahead, Greece's energy sector is poised for further transformation. The country is committed to increasing the share of renewable energy in its mix, aligning with EU directives and global sustainability goals. ...

A. Tax credits relevant for energy storage projects Among others, the following three tax credits are especially relevant to energy storage projects. All are impacted by the Prohibited Foreign ...

Energy storage regulations greece

On July 17, Gotion High-Tech, a Chinese battery manufacturer, launched production of its 5MWh Gotion GRID energy storage system at its Göttingen, Germany facility, as announced on its ...

Greece is taking on more and more important role in Europe's shift to renewable energy. The nation is fast building important infrastructure in wind, solar, and energy storage under ...

Struggling to understand how Energy Storage Systems (ESS) help maintain grid stability? This in-depth, easy-to-follow blog explores how ESS regulate frequency and manage peak loads, ...
