

ETC specializes in thermal storage, energetic efficiency, industrial wastes recovery high valuation and advanced materials characterization. Making 24/7 renewables a reality through Thermal Energy Storage. Harvest Thermal ...

The sulfide-based solid electrolyte market is experiencing significant growth, driven by the increasing demand for safer and higher-performing batteries in electric vehicles (EVs) and ...

We are at the forefront of research and development, pioneering solutions that bridge the gap between green energy and cutting-edge digital processes. With a shared commitment to a more sustainable future, we ...

Copenhagen Energy has partnered with regional power distributor Thy-Mors Energi for a 100-MW solar-plus-storage project in Thisted, Denmark. The project, located in Ballerum within the DK1 ...

Heating, ventilation, and air-conditioning (HVAC) systems account for the largest share of energy consumption in European Union (EU) buildings, representing approximately 40% of the final ...

The global Nickel Hydroxycarbonate market is experiencing robust growth, driven by increasing demand from the electric vehicle (EV) battery sector. Nickel Hydroxycarbonate is a crucial ...

The Low-carbon and Smart-energy Innovation Park Solutions market is experiencing robust growth, driven by increasing global awareness of climate change and the urgent need for ...

The exploration of phenolphthalein's role in energy dissipative systems is in its early stages, with a growing market potential as energy efficiency becomes increasingly crucial. The technology is still emerging, with varying levels of ...

The country expects to achieve fully market-oriented development of the power storage industry and independent research and development of core technologies and equipment by 2030. Answering the call, local governments ...
