

Enerparc ag South Sudan

What does enerparc do?

Enerparc participates in EEG bids, invests in projects with fixed feed-in tariffs and develops non-subsidized solar power plants in Europe with energy supply contracts (PPA) for energy suppliers or large buyers. The market of renewable energy is constantly changing and ever more global. We are an active participant and driver in this change.

Is enerparc a good place to work?

Enerparc is a certified Great Place to Work, is a leader in solar energy solutions. Discover career opportunities with us and help shape a sustainable future in a dynamic and inclusive environment. Experience our dynamic workplace culture and growth opportunities.

How many enerparc projects are there?

In more than 25 countries with over 690 projects. Over 3,450 megawatts of these projects are part of the Enerparc Group's own capacity. We are internationally active and manage projects in Germany, Europe, Asia and on other continents. Here is an overview of some selected references.

How many megawatts has enerparc contributed to the grid?

Turnkey solutions as a general contractor or as a service provider for special sub-sectors: We have contributed over 4,545 megawatts of photovoltaic power to the grid worldwide. In more than 25 countries with over 690 projects. Over 3,450 megawatts of these projects are part of the Enerparc Group's own capacity.

As EPC service provider, Enerparc AG was already gaining experience at an early stage and built the first stations in 2011. Our service includes turnkey construction of photovoltaic power stations up to the final connection to the network. We are among the market leaders in this interesting market and have already completed four projects.

ENERPARC AG | 14.269 Follower:innen auf LinkedIn.
