

Energys sbs c11 Cameroon

What makes EnerSys SBS a good battery?

The advanced thin plate, pure lead technology and unique manufacturing methods, used by EnerSys, make PowerSafe SBS batteries the choice for long and trouble-free service. PowerSafe SBS EON Technology(TM) batteries have been developed to provide high cycling and fast recharge performance in applications where the power supply is erratic.

What is a powersafe sbs-c11 battery?

The PowerSafe(TM) SBS-C11 battery utilizes unique and proven technology to provide superior performance with an extended service life in compact and energy dense configurations. PowerSafe SBS batteries are manufactured to the highest international standards and are ideal for reliable use in all wireless and fixed-line communication applications.

What type of battery does EnerSys use?

Front terminal batteries use tin-plated copper terminals. Top terminal batteries use a copper alloy insert. Approved as non-hazardous cargo for ground, sea and air transportation. Please see our SDS for complete packaging requirements at 8hr. Rate 1.75Vpc 10hr. Rate 1.80Vpc ©2019 EnerSys. All rights reserved.
