

Enos energy France

What can EnOS (Envision Digital) offer?

EnOS offers capabilities in renewable energy management, buildings, factories and transportation system optimization, EV charging systems, compliance reporting, energy trading, and carbon offset market engagement.

What is Envision Digital's EnOS net-zero platform?

Envision Digital's EnOS net-zero platform manages over 220 million devices and 400 Gigawatts of electricity. It offers highly configurable, end-to-end IIOT solutions that use AI to reduce carbon emissions and costs, improve return on capital, and simplify reporting and compliance.

What will Envision Digital do for QOS Energy?

Envision Digital will increase research and development investment in QOS Energy's platform and French-based research and development team with this acquisition, which has received FDI approval by the French government. It will also expand the market for QOS Energy solutions in Asia and the Americas.
