Yes, you can charge an RV battery with a solar generator. In fact, many RVers use solar generators as an alternative power source to charge their RV batteries. By connecting your RV's battery to the solar generator through a charge controller, the solar panels will convert sunlight into DC power, which will then be stored in the battery.

Jackery Solar Generator 500 is a solar solution that combines Explorer 500 portable power station with SolarSaga 100W solar panel. It converts sun energy by solar panels into electrical power and then stores it in the portable power station for later use. This solar generator is a reliable and clean power source for campers, RVs, or as an ...
