Is Nadara operating at scale?

Toni Volpe, CEO of Nadara, said: " At Nadara we are already operating at scale. Our new combined entity is one of the largest independent renewable energy companies in Europe and gives us the flexibility and agility to scale even more efficiently.

What is Ethiopia-Kenya Electricity Highway?

Ethiopia-Kenya Electricity Highway - The network comprises 650 miles of transmission lines that allow electricity to flow between Ethiopia and Kenya. It means that the two East African countries, which rely on renewable energy sources, have access to backup supplies from their neighbor.

What is Nadara's long-term strategy?

Nadara, Europe's largest independent onshore wind producer, announces the new combined entity's long-term strategy, focused on scaling up and growing to deliver an 18GW development pipeline over the next 10 years, while maximising the value of its existing operating portfolio for stakeholders.

What does Nadara do?

As a developer, owner and operator, we generate and deliver dependable, clean electricity to Europe and the US, while safeguarding the environment and positively impacting local communities. From planning to production and consumption, Nadara has a strong track record of providing services at all stages of the value chain.

Why is energy important for Ethiopia?

Energy is one of the most significant sectors for Ethiopia's economic growth and development and is expected to increase significantly in the medium run. Ethiopia has abundant renewable energy resources and the potential to generate over 60,000 megawatts (MW) of electric power from hydroelectric, wind, solar, and geothermal sources.

How much does hydropower cost in Egypt and Ethiopia?

Costing hydropower: We used electricity prices for businesses in Egypt and Ethiopia to calculate the economic gain or loss of hydropower. The electricity prices per kWh for businesses in both countries are nearly the same at 0.022 USD for Ethiopia and 0.024 USD for Egypt.

Ventient Energy has committed to uplifts of five community benefit funds with the exception of one site where the fund was more recently established". "We are committed to continuing the maximisation of the environmental, social, and economic benefits our wind farms provide, and this has been achieved through extending the planning consents ...
