Battery Box Certified to ATEX and IECEx OVERVIEW Pharos Marine Automatic Power's explosion proof Zone 1 and 2 Battery Boxes have the versatility to house any type of sealed Nickel Cadmium or Lead Acid battery from all recognised battery manufacturers. Available in 316L stainless steel and galvanised or painted steel, the battery box is

What is the difference between explosion-proof and intrinsically safe? The internals must be engineered to contain an internal explosion and avert a much larger detonation in explosion-proof equipment. The intrinsically safe rating means the electronics cannot spark or create sufficient energy to ignite. In both cases, the equipment's surface temperature cannot ...
