aimed at rural customers to aid the integration of renewable energy technologies within the islands whilst expanding on the ...

A: Yes, you can farm high-level defense missions for amorphous materials that contain Energy Activators, though it might take some time. Q: Do Energy Activators work the same for all Descendants and weapons? A: No, Energy Activators are specific to the Descendant or weapon you use them on. For Descendants, each one needs its own Energy Activator.

Energy activator, once per descendant or a weapon. It's +20 capacity. Doesn't reset level for either. I recommend only to use it on you favorite and most used/powerful descendant or ultimate weapon. Crystalline catalyst, need your descendant or weapon proficiency level to be 40 to use, you revert to level 1 on use. You can use as many times as ...

An Energy Activator requires many resources, making the farming method all the more tedious. However, there's a way to optimise how you farm regarding this item. If you don't know the ...

The Energy Activator Blueprint in The First Descendant (TFD) is a crucial component for crafting Energy Activators. These blueprints are notoriously difficult to farm due to their low drop rate, making it a time-consuming process for players.

?????????The First Descendant????????????1?? ?????????? ???20????????30???????????? ????????????? -> ????????????????????????????????????? ...

The "Energy Activator Blueprint" has a consistent drop rate for me, occurring every three days. Despite a mere 3% chance of obtaining it, I've noticed this pattern after opening around 20-30 Amorphous Materials during those periods. This consistency makes me believe the system might be rigged. How can such an essential resource be treated this way?
